 3. Product Search
 4. Shopping Cart
 5. Wishlist
 6. Checkout
 7. Logout
-

Test Execution Summary

Module	Test Cases			Passed	Failed
Registration	5	5	0		
Login	5	5	0		
Search	5	5	0		
Cart	5	5	0		
Wishlist	3	3	0		
Checkout	5	5	0		
Logout	2	2	0		

Total Test Cases: 30

Passed: 30

Failed: 0

Pass Percentage: 100%

Sample Test Cases

TC_001 – User Registration

Objective: Verify user can register successfully.

Steps:

1. Open website.
2. Click Register.
3. Enter valid details.
4. Click Register button.

Expected Result:

Account should be created successfully.

Actual Result:

Account created successfully.

Status: Pass

TC_002 – Login with Valid Credentials

Objective: Verify user can login.

Steps:

1. Open Login page.
2. Enter valid email.
3. Enter valid password.
4. Click Login.

Expected Result:

User should login successfully.

Actual Result:

User logged in successfully.

Status: Pass

TC_003 – Search Product

Objective: Verify search functionality.

Steps:

1. Enter "Laptop" in search box.
2. Click Search.

Expected Result:

Matching products should be displayed.

Actual Result:

Relevant products displayed.

Status: Pass

TC_004 – Add Product to Cart

Objective: Verify product can be added to cart.

Steps:

1. Open product page.
2. Click Add to Cart.

Expected Result:

Product should be added to cart.

Actual Result:

Product added successfully.

Status: Pass

Defect Summary

No critical defects identified during execution.

Conclusion

Manual testing was performed on the selected modules of the Demo Web Shop application. All planned test cases were executed successfully. Core functionalities such as registration, login, search, cart operations, checkout, and logout worked as expected.
