Status: Open

Reported By: Vaishnav V

Bug ID: BUG_002

Title: Name field accepts special characters during registration

Module: Registration

Environment:

Chrome Browser, Windows 11

Precondition:

User is on the Registration page.

Steps to Reproduce:

1. Open Registration page.
2. Enter First Name as "Vaishnav#\$%".
3. Fill remaining mandatory fields with valid data.

4. Click Register.

Expected Result:

The Name field should accept only alphabetic characters and display a validation message for special characters.

Actual Result:

The system accepts special characters in the Name field and allows registration.
